Hot Weather in New York.

The sudden return of heat has greatly increased the mortality of children and aged persons, making applications for burial more numerous than any day this summer. Many persons were prostrated in the streets

Grierson's Command Whipped.

AUSTIN, Tex., Aug. 24—Parties from the west report Victorio's Indians not whipped, Grierson instead being whipped, and are now in Mexico.

Unfavorable Indian News.

CHICAGO, Aug. 24—A dispatch received from Fort Buford, dated the 9th, at military headquarters to-day, reports indications unfavorable. A few days ago the Uncapapas of Sitting Bull's tribe, prevented a large body of Indians from crossing the Missouri to surrender themselves at the agency, and the number on the road under "Big Road" or "Tall" is very small. "Rain-in-the-Face" is still at the agency with 40 warriors. [illegible] Warriors are reported going south while the women and children are going north, a bad sign.

[illegible], Aug 24—Chief Turning Bear and [illegible] Brule Sioux Indians belonging to Spotted Tail's agency, who stole ponies and killed a white man a few weeks ago and were recently captured by Spotted Tail's police, arrived here this evening in charge of Lieut. Railroads Granted Passage through the Black Hills Reservation.

CHICAGO Aug 24—Both the Northwestern and Milwaukee & St Paul railroads have now obtained permission from the Indians to lay their tracks through their reservation in the Black Hills and in the race for that section the country will see some of the fastest track laying ever witnessed. The interior department has been loth to allow railroads to run through the Indian country, for experience shows that railroads tend to make Indians beggars where they have been thrifty and good citizens, and demoralized them in every way.

Unfavorable Weather in the Corn Belt.

Dispatches to the Times from various points in the great corn belt show that the crop has been seriously damaged by drought, the dry [illegible] ranging in some localities from four to [illegible] The yield per acre will be much below an average, but owing to increased acreage it is probable that the crop in the aggregate will be as large as that of last year

Gen. Myer's Death.

BUFFALO Aug. 24—Gen. Albert Myer of the signal service is dead.

WASHINGTON, Aug. 24.—A general order announcing the death of Brig Gen Albert J Myer, chief signal officer of the army, will be issued to-morrow. Adjt. Cause of Gen. Myers' Death.

BUFFALO, Aug 24—The immediate cause of the death of Gen. Myers was Bright's disease of the kidneys, together with chronic [illegible] disease, from which he had suffered for some time. The general's health had not been good for several months, and severe work at Washington at length broke him down entirely. His family were sent to their summer residence at Lake View near this city, and Mrs. Myers remained with the general at Washington. He paid a visit to his friend and physician, Dr. Hamilton, of New York, and under his advice came to Buffalo for absolute rest and freedom from care and anxiety. He was brought here a week ago Saturday and furnished with retired quarters at the [illegible] hotel. This morning, surrounded by his family—wife and six children—he died.

Tables showing the increase have been prepared for him at the treasury department. These tables are as yet secret but it is known that they show that the increase in production of the precious metals has been much greater during the past fiscal year than any preceding.

POLITICAL.

The Situation in the New York Democratic Camp far from Lovely.

NEW YORK, Aug 24—Tammany's newspaper organ, which should speak by authority, declares that the attempt to harmonize conflicting interests in the ranks of the New York democracy will fail. John Kelly is supremely jealous, and as Faulkner, chairman of the state committee, draws his inspiration principally from Gramercy park there does not appear to be a very good prospect of soothing the great sachem's savage breast. Tilden's advice to machine managers is to ignore Tammany entirely

Amusing Democratic Speculation.

NEW YORK, Aug 24—The *World* referring to a *Herald's* correspondent stating that California is looked upon by the republican managers as likely to give its six electoral votes to Hancock and English, and that they are bending their energies to save the senatorship from the wreck adds They are doing the same thing in Connecticut and New Jersey, and looking for a collapse in the national contest, but hope to reduce the democratic majority in the senate and if possible to secure the house. It has all along been the opinion of the Grant managers that Garfield's defeat would bring their candidate to the front in 1884

The Alabama Villainy.

NEW YORK, Aug 19—The *Tribune* says An address has been issued to the country prepared by the republican state committee of Alabama, which sets forth with remarkable clearness and exactness of statement the fraud committed by the democrats at the late election in that state. Winrick and wife lived unhappily on account of children of each by former marriages, and it is supposed that he shot his wife with a shot gun, set fire to the house and then shot himself with a revolver and failing to finish himself discharged a shot gun into his own body. Fire at the Bay District Track

SAN FRANCISCO, Aug 24—At a quarter past 1 o'clock this morning a fire broke out in a row of buildings at the extension of the Geary street railroad and [illegible] [illegible] joining the Bay District track buildings which were all recently erected at a cost of $5000. They were occupied principally by G Damon, H Muller, Fred Monnier and others and were used as saloons concert halls, shooting galleries restaurants etc. The fire was first discovered by one of the employes of the railroad company and he stated that his attention was called to the spot by a loud report followed by an immense sheet of flame which rose in the air about fifty feet. A brisk breeze was blowing and the flames quickly enveloped the whole row. The isolated position of the buildings and their remoteness from any water supply precluded the possibility of saving any thing at all. The upper stories were occupied as tenements, and the rapidity with which the fire spread gave small opportunity to any of the occupants for saving any of their household effects. As it was some of them narrowly escaped with their lives. The total loss is estimated at $80 000, partially covered by insurance

LATER—Only four buildings were burned by the fire at the Bay District track this morning, and the loss will not exceed $25 000.

NOTE FROM MR. KERN

The report on Chinese mission presented by Rev L L Rogers, reviewing in detail what had been done in Portland and Seattle for the education of the Chinese was accompanied with a request to Bishop Wiley for an address on the subject. The bishop reviewed the whole question in the light of God and humanity, and not of mere dollars and cents, enforcing the duty of the American people to treat the Chinese on our shores with kindness. It was one of the bishop's happiest efforts

The report of Rev W Roberts on the establishment of a mission in Alaska was not favorable toward such a mission at present.

Bishop Wiley then addressed the conference in his usual interesting and impressive manner, insisting 1st, That all the appointments were good ones. 2d That they were the best that could be made under all the circumstances and 3d That he believed the divine blessing attended the making of them. He urged upon preachers and people the need of grace to work out the great and blessed but hard plan of Methodism. He then read the

An Appeal for the "Mississippi Plan"

Southern journals allege that a deep laid conspiracy is on foot among republicans in certain parts of the south to outvote the democrats. The Memphis *Appeal* thus sounds the alarm and indicates the remedy:

Such is the plan of the republican managers and they have hope in fact have assurance that southern democrats will co operate with them in the garb dress and paraphernalia of that political *ignis fatuus*, the national party of which Dennis Kearney is the leader the brains and capital. *Awake. Let the Mississippi plan be restored!* Can you stand idly, supinely and witness the consummation of a gigantic conspiracy in conception deeper and more poignant than the fraud of 1876? No—a thousand times no. Then awake, *stir up your clubs let the shout go up, put on your red shirts, and let the ride begin*, or we will be sold into political slavery as was Joseph without divine favor to restore us to our heritage

Jacksonville *Times*: Col W. S Stone superintendent of the Oregon and California Stage Company, informs us that it is quite likely that Mr Hayes and family and others twelve in all who are making a tour of the western and Pacific coast states will pass through this section about the 1st of September on their way north to Puget Sound. The stage company will furnish the conveyances and the trip from Reading to Roseburg will be made in about six days. As the party only travels during the day time, it will probably stop over at Jacksonville or Ashland for a night

A Coos county rancheman, in driving cattle to Whitney's slaughter house recently, had great difficulty in making the trip without making a barbecue of his entire herd. The trail was beleaguered on all sides by a continuous line of fire

A strong southwest wind has prevailed all day driving away the smoke and rendering the atmosphere once more clear and pleasant

NORTHERN PACIFIC PROSPECTS

Officials of the Northern Pacific railroad say that the local business of their line from Lake Superior and St Paul westward will support it no matter how many through lines may be built hence they are not concerned about the schemes of rival companies This faith on the part of the Northern Pacific furnishes an indication of confidence in the growth in the new northwest which the progress of this vast section clearly justifies Development of Northern Minnesota Dakota and Montana is now proceeding with vast rapidity Tens of thousands of emigrants have been attracted to points near the line of the eastern division of the Northern Pacific during the present year Great numbers have also been settling in the vicinity of the line of the western division in Eastern Washington If through connection could be had the increase would be almost beyond conception Large numbers of Montana cattle are now being forwarded over the lines of the road toward the east and the mineral wealth of the Rocky mountain region will soon build up another branch of traffic. Besides the wheat district of the north forms a belt that reaches with few interruptions the whole way across the continent So soon as the timber districts of the Cascade range are tapped there will be an enormous lumber traffic covering the whole treeless country for hundreds of miles eastward The prospect of deriving all needful revenue from the traffic based on these rich products and the supply of the general wants of an increasing population is decidedly encouraging for the company and so soon as the connection is made through the trade between the Pacific coast and the Mississippi valley and the great lakes will attain very large proportions Work is being pushed satisfactorily on the eastern end of the road and the rails will be laid to the Yellowstone by November A government land office has been opened at Miles City on the Yellowstone, three hundred miles west of Bismarck the point where the road crosses the Missouri Another event of significance to the road is the recent order of the president of the United States restoring to the public domain the Fort Berthold reservation. This is on the west side of the Missouri commencing at a point some forty miles northwardly of Bismarck, and extending to the Yellowstone and Powder rivers The reservation embraces some hundreds of thousands of acres of most excellent land and the land-seeking army is already occupying it rapidly As fast as the railway is built its local traffic is found to keep pace with the outlay so that it really seems no boast on the part of the officials of the company that the local traffic of the road will support it, no matter how great the competition from through lines

COMPARATIVE WHEAT PRODUCT

In Pennsylvania the State Agricultural Association maintains a farm called the experimental farm, on which various products are raised and various kinds of the same product. Different fertilizers are also used so that the value of each may be definitely ascertained, as well as which is the most profitable crops to grow The superintendent of this farm gives the following report on six varieties of wheat raised by him on the same kind of soil the past year

Washington White—Smooth large white grain weight 59 pounds, yield 13.40 bushels per acre.

Eureka—Smooth white grain weight 59 pounds, yield 15 63 bushels per acre.

Fultz—Smooth amber grain 60 pounds yield 15 60 bushels per acre.

White Chaff Mediterranean—Bearded amber grain, weight 62 pounds yield 26.52 bushels

Champion Amber—smooth amber grain, weight 58 pounds, yield 21.40 bushels per acre.

Swamp—Bearded, white grain weight 62 pounds, yield 37 41 bushels per acre

Fultz and White Chaff Mediterranean—Bearded, white grain weight 61 pounds, yield 25 44 bushels per acre

Three hundred pounds of South Carolina rock fertilizer was used on each acre to produce the above results When the object sought is that which the Pennsylvanians are after on their experimental farm, the work is always more carefully done than in general farming and the results above reported are doubtless better than the average farmer in that state can hope for Were these farmers, however in Oregon or Washington territory, their experimental product would appear very insignificant when compared with the yield of wheat which may be had on most of the farms here with ordinary culture Less carefully selected seed, without any fertilizer except what nature furnishes ready scattered through the soil, and which is not exhausted in one, two or a dozen years twice or thrice as much grain is produced as on the experimental farm in the Keystone state The grain also is heavier to the measure, good Oregon wheat always exceeding 60 pounds to the bushel, and the best weighing from 63 to 65 pounds. The average yield in Oregon, as shown by the census enumerators in 1870, was about 19 bushels to the acre for the year 1869 which was not an average year and consequently the showing was not a true indication of the wheat producing capacity of the state The same deficiency will probably be shown by the reports of the census now being made up as 1879 was a so an unfavorable year and the yield per acre below the average. For this year a correct report would probably show at least 20 per cent better than for 1879

FORNEY'S FLOP

Much ado is being made by the democratic press over the fact that John W Forney has "come out" for Hancock Some of the younger generation who now take part in political affairs may not know that Forney was an old democrat During the years in which he has been acting with the republicans it has been a favorite theory with his old democratic associates that he deserted from their party because President Buchanan refused to appoint him to a high office to which he aspired In all the democratic papers this has been asserted a thousand times Of course the republicans, willing like all other parties to accept the aid of recruits who from whatever motives chose to join their ranks, took Forney in though they were not convinced by the eagerness with which he sought and the readiness with which he held high office at their hands that his motives were not as selfish as his old democratic associates declared them to be or that if he had received the "consideration" at the hands of Mr Buchanan to which he thought himself entitled and got the appointment he desired he would have supported the administration and all its measures in respect to Kansas and slavery with just as much zeal as he afterwards displayed in denouncing them

It is proper to say also that many of the younger sort may not have had opportunity to know that up to the time referred to there was not in any northern state a more servile upholder of slavery and the slaveholders pretensions to rule the government or a more unscrupulous denouncer and reviler of anti slavery men and measures than John W Forney His sudden change under the circumstances did therefore give a good deal of color to the democratic charge that he had apostatized because Buchanan would not make him a member of his cabinet or a foreign minister and [illegible] [illegible] with the [illegible]

[illegible]

wear the honors and enjoy the emoluments that he had received through adhesion to their party without asking for more He advised and urged the nomination of Gen Grant but when another was named he considered his own prospects clouded and so slid back to the democrats Perhaps it is not unfair to judge that he has gone back to the party of his old love for at least as good reasons as those alleged for his leaving it. Of course his career is of no particular consequence either as a democrat or republican since neither party would have run its career precisely as it has done had he never lived But he may be worth a passing notice as one of those typical changelings who swing back and forth from one party to another with no convictions except such as may be founded on their own egotism It is chiefly however because the importance of the libratory and vibratory motions of the few like him is so immensely exaggerated that the matter is worth notice at all It often happens that those who consider themselves conspicuous figures in great affairs and manage to get themselves much talked about as such by shallow people are really pigmies and nothing else and pigmies are pigmies still though perched on Alps

STATISTICS OF HOP GROWING

The hop growers association of central New York recently held a meeting at which valuable information was presented as to the hop growing interests of the country Figures were given showing a remarkable increase of the industry in the United States as follows

	Bales
Total hops grown in the United States in 1850	6 193
Total hops grown in the United States in 1870	55 655
Total hops grown in the United States in 1879 (estimated)	110 000

Another valuable fact is the considerable advance in the prices paid for hops as shown in the following table

Year	Cents	Year	Cents
1853	23	1871	12
1854	45	1872	65
1855	33	1873	45
1856	10	1874	40
1857	10	1875	43
1858	10	1876	17
1859	18	1877	20
1860	16	1878	13
1861	32	1879	15
1862	28	1880	35
Average price for the ten years	22	Average price for the ten years	30½

Most of the hops offered in our eastern markets are produced in the state of New York In Michigan and Wisconsin where hops were produced largely a few years ago farmers are turning their attention to other crops The total product of the present year in the United States is estimated at 120 000 or 125 000 bales In Oregon and Washington a few years since an active beginning was made in hop-growing But discouraging low prices for two or three years in succession arrested the growth of the business, and even reduced it very considerably This year again hops bear a good price and it is unfortunate that the business has been allowed to decline

It seems probable, though the south is now so solid as a political body and will for the present remain so, that nevertheless forces are collecting whose explosion at a future time may rend it into fragments The readjustment question has separated the Virginians, apparently beyond all hope of reconciliation Two democratic gubernatorial candidates are in the field in Tennessee and it is announced also that the opponents of Gov Colquitt of Georgia have obtained the consent of Ex Senator Thomas M Norwood to run as a rival democratic candidate. Ben Hill heads the opposition to Colquitt, and a bitter campaign is not unnaturally expected Only in Virginia thus far are there rival electoral tickets, but the differences thus arising betoken divisions in future elections One result of this warfare is better than all the rest When rival democratic factions begin to sharpen their knives against each other a natural consequence is less bitterness on the part of both towards republicans, and as the rival factions come to bid for republican help against each other, they will begin to concede that republicans are good fellows after all This, however, is in the future. The south will hold its electoral vote solid, mainly by manipulating the count, till it sees whether it can succeed in this supreme effort to get control of the national government. Should it fail now, the disintegration would begin at once and would be rapidly accelerated by the causes noticed as already in operation.

It is observable that a great increase is reported in the colored population of most of the southern states. Either the census in those states is a tremendous fraud, or the old assertion of the slave breeders, backed up by northern dough faces, that the blacks would die off if admitted to freedom, was about as far out of the way as most of the other great deliverances of the philosophers of the democratic party It is probable that the truth lies in the middle ground between the southern census and this doctrine that the negro race would become extinct, unless multiplied by the moral practices of the slave breeder No doubt there has been a moderate increase of the colored population in the last ten years in spite of the old democratic prediction But in the phenomenal increase reported in such states as South Carolina and Mississippi there is beyond all question a large element of political fraud, the object being to hold the political power of the bulldozer in the house of representatives and the electoral college. It was for this purpose that the supervisors first nominated by the president were rejected by the senate

Exports of petroleum, which began in 1862 reached during the year ended June 30, 1880, a total of 435 785,796 gallons valued at $37 189 258 The amount exported for the year named was larger that that of any previous year but the value of the export of the year ended June 30 1870 was considerably larger and petroleum then bore a higher price than now In 1866 the average export value was about 48c per gallon in 1869 it had fallen to 31c in 1877 to 20c and in 1879 80 to a fraction over 8c per gallon At first both the crude and refined article was exported but now the refined forms the bulk of the exports The average daily production in June 1880 was 60 691 barrels of forty gallons each The supply is now as equal to the sale of 435 000 000 gallons annually as it was to 100 000 000 gallons ten years ago We have sold to foreign countries in eighteen years petroleum valued at the prodigious total of $562 992 645 The sale is steadily increasing in all parts of the world As for the supply it is as far as may be judged practically inexhaustible

Mr De la Matyr greenback congressman from Indianapolis, has again been talking with a reporter this time at Acton Ohio Again he expresses himself in a most positive way against the style of carrying elections in the south which he witnessed while on his recent trip there He says he told the people of the south that the reason he left the republican party was his "opposition to its financial doctrines and to its sectionalism but that he found 'the sectional feeling at the south more intense than anything he had witnessed at the north and further, that he told the southern people that if they did not put it aside they would speedily make a solid north But of course all advice like this is wasted They who tender it see it and hence their disgust

Almost daily the small organs report conversions from one political party to the other [illegible] as if they were [illegible] [illegible] [illegible] on the [illegible] [illegible] [illegible] the election [illegible] [illegible] [illegible] [illegible] [illegible]

vote for Hancock But of course as matter of fact the whole of these changes all taken together wouldn't be enough to affect the result in a backwoods county of Indiana or Missouri

All the greenback orators who went to Alabama to take part in the campaign agree that free speech is unknown in the south One of them J H Randall of whose experiences we had some account by telegraph closes a long letter on the treatment he received with this statement Considering that taken as a whole the northern and southern states represent two entirely different civilizations the simple question for the people to decide is Which shall reign—the inferior or the superior

An eloquent editor on vacation writes to his paper Wherever wears of gazing out over the vast expanse of sea of watching the varying state which bend above and the white ships gliding to and fro like [illegible] spirits of the deep Shake brother exclaims the New York *Graphic* you have won our respect Or [illegible] would have been watching the new styles of bathing dresses and the noisy sports that splash with them in the deep An editor that it heaven is a moral being

Connecticut has a population of [illegible] a gain of 87 891 since 1870 Vermont's population is 334 456 a gain of 3304 since 1870 Maine has a population of 642 313 a gain of 16 004 Massachusetts has 1 783 812 inhabitants a gain of 326 461 in ten years The total gain of the six New England states since 1870 is about half a million all of which is in the cities and manufacturing towns On the whole there has been a decrease of the agricultural population

The feud between Tammany and the regular democracy of New York instead of being in the way of settlement is daily growing wider Tilden and Kelly are unreconciled as ever, and the followers on both sides appear to join in their hatreds The chances do not seem to be excellent for any true reconcilement to grow where wounds of deadly hate have pierced so deep and this fact is likely to tell upon the vote in November

The republican party is asked to end sectionalism by surrendering to the solid south In like manner it was asked to end the war by surrendering to the rebellion To make the last named demand effective it was told that the war was a failure To make the present demand effective it is informed that it is a duty in order to get rid of sectionalism to allow sectionalism to rule the country The logic is not overpowering

Judge Tourgee who wrote The Fool's Errand has secluded himself from the public eye pending the completion of his new book 'Bricks Without Straw,' which he hopes to give to the public within a month or so If the new book is to be a discourse on southern politics Bricks Without Straw' will not be a bad title as it may fitly set forth the southern democratic theory and practice of getting majorities out of nothing

Those who have occasion to address this office on business will please take notice that their communications should be addressed to "The Oregonian," and not to the editor Letters relating to subscriptions and advertising are often addressed to the editor personally, and the result can hardly be other than confusion and delay Please address The Oregonian

The official census of Montana shows the population of that territory to be 39 191 In 1870 it was 20 595 Now that railway connections are about to be made with the territory it may be expected that its population, which has been doubled in the last ten years, will be quadrupled in the next ten

On the 14th August the case of the state of Indiana against William R. Smith involving the question of the ratification of the constitutional amendments of that state was filed for rehearing before the supreme court It will be heard in September.

In an interview Mr Edison says that Mr Field's device for an electric locomotive is entirely different from the Menlo Park invention Which ought to awaken a strong hope that Mr Field's attempt will be successful

OFFICE OF THE

PACIFIC MUTUAL

LIFE INSURANCE COMPANY

OF CALIFORNIA.

SACRAMENTO July 1st 1880.

To all Desirous of Securing the Benefits of Life Insurance:

The first consideration with applicants for life insurance is or at least should be SAFETY Will the Money Paid out for the Policy be Prudently Invested? Are the Affairs of the Company Honestly and Efficiently Administered? When the Policy Becomes a Claim, will it be Promptly Paid, and thus the object which induced the payment of the premiums be fully attained? These are queries naturally suggested and the character of the answers determines the course of the questioner and the selection of his Company.

In this connection the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and statements concerning their Company

1 Since its organization A D 1868 *it has paid 3ad death losses, on policies amounting in the aggregate to $902,975*

2 It has Paid to Policy Holders, for Matured Endowments, Dividends, and Surrender Values, in Round Numbers, $1,000,000

3 Its cases have been paid Promptly and without Litigation *No judgment arising from a Policy claim has ever been rendered against it and it has no suits of this character pending*

4 It has repeatedly been examined by Sworn Experts, and most thorough and searching investigations made of its condition and business, and IN EVERY CASE its Solvency and Trustworthiness have been Demonstrated.

5 Its Stockholders and Directors are widely known as among the most capable business men and ablest financiers of the State of California, and the integrity of their management is unquestioned.

6 The laws of the State including the constitutional provisions affecting corporations are of the most rigid character such as to make the Company one of the safest institutions of its kind.

Section 3 of Article XII of the NEW CONSTITUTION of the State of California is as follows

SEC. 3. Each stockholder of a corporation or joint stock association shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock or shares of the corporation or association The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such Director or Trustee

7 Its policy contracts contain no restrictions upon residence or travel and its forms of insurance are unusually attractive The Low Rate, Deposit Endowment, and Mutual Investment Policies, are peculiar to this Company and offer advantages to the insured which are not surpassed if equaled by those of any other Company

8. When desired Policies can be registered by the Insurance Commissioners of California, on the payment of a moderate fee and a policy holder in the PACIFIC MUTUAL LIFE INSURANCE COMPANY of California has then the *absolute guarantee of the State of California* that the money held by this Company against the contingency of his death is secured by bonds and mortgages deposited in the State Treasury With December 31st 1879 the Company closed its eleventh year, and in so doing affords *the only instance on record* in which a life insurance company in the eleventh year of its existence was enabled to pay its death losses from interest receipts not only was this done but in addition thereto a considerable surplus remained

Believing ourselves entitled to the confidence and business of such as propose affecting insurance upon human life we solicit their patronage and pledge ourselves to discharge to the best of our ability the important and sacred trust devolved upon us

WEDNESDAY MORNING AUG 25 1880

CITY

Down It Came.—Quite a panic occurred yesterday afternoon at 2 o clock at the dry goods store of A Mendelson on Front st between Alder and Washington which brought together a large crowd Without a moment s warning all the shelving on the south side of the store broke from the fastenings to the wall and came down with a crash which could be heard a block away The shelves were piled full of various kinds of merchandise, all of which were dumped in one indiscriminate heap on the floor Mrs Mendelsson fortunately was standing near the middle of the room and escaped getting caught under the falling mass The damage is slight

Pedestrianism.—Mr D P McNeil announces in another column that the first seventy-two-hour go-as-you please contest on the Pacific coast will commence in Turn Halle Sept 25th, 1880 at 2 o clock P M 12 hours a day for six days, for the championship of Oregon and cash prizes as follows First man $125 second $50 third $25 The winner of the first prize will be entitled to admission to the match for the Andrews belt by depositing $100 with the stakeholder on or before May 1 1881. There will also be a special prize of $200 open to all on payment of an entrance of $25 first man, $125 second $75

A. O. H.—At the recent session held in this city by the state convention of the Ancient Order of Hibernians the following officers were elected State delegate Thomas P ... state treasurer S J McCormick state secretary Joseph Wiley Monday evening Division No. 1 Ancient Order of Hibernians held a meeting and elected the following officers County delegate, J O Connor president Alexander Keegan vice president Daniel Monahan secretary Tim Cadigan recording secretary J Kennealey treasurer John Mooney and sergeant-at-arms Thomas Mathews.

Coming Home.—The homeward flight of the swallows has commenced each boat from seaside resorts bringing large companies and by the close of the week everybody or nearly everybody will be at home again The abrupt close of the season is not so much due to the delightful change in the weather as to the fact that fall terms of schools, public and private, commence next week The O R & N Co. will not send a special boat to Ilwaco as the score of people there hoped but they will probably make other arrangements for through passage home

Favors Acknowledged.—Rev Isaac Dillon, one of the pioneer ministers of the M. E church in Oregon, has placed The Oregonian under obligations for the very excellent reports furnished of the conference, which has just closed its session at Eugene City Dr Dillon has for many years wielded the editorial quill and knows how to prepare his reports. They are complete and have been published in advance of any other paper in the state. On the first page will be found the concluding proceedings, inclusive of the list of appointments.

The Blue Ribbon Club.—The Blue Ribbon club meeting at the M E church Monday evening was presided over by Mr Oliver, vice president. The meeting was addressed by Mrs Dr Thompson, Mr McDougall Mr Hays and Mr Smith, all residents of Portland. The committee appointed at the last meeting of the club to secure the passage of a Sunday law by the board of trustees were actively at work securing signatures to a petition asking the board to take action in the matter.

Contracted Work.—Mr Cady, who was awarded the contract of constructing the brick vault in which are to be stored the books and records of Multnomah county, has filed his bonds—$2500—which have been examined and approved by Judge Rice Several men commenced work yesterday excavating for the foundation. As soon as the foundation is prepared the mason work will be commenced and crowded forward to an early completion

Special Announcement.—Coung Ye Lung agent for the Chinese theater, announces this morning in the advertising columns that the renowned Chinese acrobats, Ah Toon and Sin Toon, just from the Royal theater at Pekin, China, will make their first appearance this evening. The feats of these acrobats are said to be something really wonderful. The performance this evening will be arranged especially for the entertainment of white people.

Pronounced a Nuisance.—The *Telegram* says "The residents within three blocks of the Chinese theater are complaining about the eternal din and racket kicked up by the orchestra every night, Sundays included It is kept up until after 2 o'clock in the morning, it is claimed, and makes the night hideous A petition is in circulation which will be presented at the next meeting of the city council, asking to have the nuisance abated "

A False Report.—It was reported yesterday on the streets that one of the Chinese passengers on the *Josefa* had been killed by a countryman while that vessel was on the way from Astoria to Portland United States Prosecuting Attorney R Mallory, on hearing the report, boarded the vessel on her arrival here for the purpose of ascertaining the truth of the matter He learned that there was no foundation whatever in the report

Bark Sybley.—A dispatch dated Valparaiso August 24th, says "The British bark Sybley, which sailed from Astoria for Liverpool on June 2d was thrown on her beam ends during a storm. Her topmast carried away by a gale and cargo so badly damaged that it had to be jettisoned " The cargo of the *Sybley* consisted of 7178 centals wheat 400 barrels of flour, 2250 cases of salmon. Total value of her cargo $91,917.

Sent Up.—Mooney, the little one legged boy, whose name has often appeared in these columns, was sent up before Judge Stearns yesterday, charged with the larceny of $12 With an old knife he cut open the pocket of Sam Miller, an occupant of his own abode and took therefrom the money He spent a portion of the money before being arrested Judge Stearns committed the lad for 18 days

More Chinese.—The German bark *Josefa* arrived here yesterday afternoon having on board 227 Chinese passengers The *Josefa* came from Hongkong, and on the passage to this port three of the passengers died The vessel brought a cargo of 330 tons of rice and teas. The *Josefa* is moored at Flanders wharf.

Arrested.—A man named Stewart was arrested a few days ago at The Dalles charged with selling liquor to an Indian, and brought down in custody of a deputy United States marshal on Monday. He waived an examination, and not being able to furnish the bonds required, was committed to the county jail

A Candidate.—Miss Nora Simpson daughter of Hon. Ben Simpson, will be a candidate for a clerkship in the house at the coming session of the legislature Her thorough and excellent performance of the duties of engrossing clerk of the last house is her best recommendation

That Bridge.—Credit is due Mr A J Watson for substantial repairs made to the Thirteenth and S street bridge which owing to its horrible condition has caused damage to many horses and vehicles, much blasphemy and numerous locals for the press

Stole a Clock.—A man named Williams stole a clock from the Cottage saloon in the lower end of the city Monday night He was up before the police court yesterday and was required to pay a fine of $25 Williams liquidated to avoid going to jail

Full many a simple ignorant sardine
Believes them purest stones of value rare
And that s where they re fooled

A young lady remarked that she should like to have bicycles so arranged that she and her beau could both ride Being asked where her fellow should sit she emphatically replied On the little wheel behind of course And still the young men go on t marrying

The following stanza appears on a grave stone in the Leadville cemetery

O er this poor gambler s silent clay
Kind reader do not grieve
His death took place when Johnson caught
Three aces up his sleeve

Love laughs at locksmiths well it also smiles at breakers Here s something for sea siders to read and reflect upon A blooming daughter at Long Branch was married to her disguised lover in the surf the other day The indignant parent had neglected him but man maiden and minister all scootched down in the water up to their necks and the ceremony was performed before the J P on the beach recognized one of them

YOUNG MEN'S REPUBLICAN CLUB

The meeting of the Young Men s Republican Club last evening was in every way a success.

The audience was the largest and every way the best that has attended any of the meetings of the campaign and we were pleased to notice the increasing attendance of ladies

The band music was most excellent and the music by the glee club under the leadership of Mr F C Wheeler of the music committee was one of the best features of the evening

Of the appointed speakers of the evening Mr H Y Thompson was unable, owing to sickness to attend and his letter of apology was read in which he expressed the hope that he might at some future time address the club

In the absence of Mr Thompson the meeting was addressed by Judge L B Stearns who entertained the club with a speech which was very well received and was considered one of the judge s best efforts

Mr F Clarno followed with a short and enthusiastic address which covered the ground of the campaign and was delivered in a manner which commanded attention

The president then introduced Mr O F Paxton whose address was full of good things and was read in a dignified manner

Mr Curtis of the executive committee of the Garfield club No 1 was then called upon and stated some facts illustrative of the influence wielded by young men s clubs

The club is to be congratulated upon its presiding officer who fills his station with dignity and suavity of manner and is always happy in his remarks

We are also glad to see that they are bringing out some of the young men who have not heretofore taken any part in public affairs

AMENDING THE CHARTER.

PROTECTION TO PROPERTY

To the Editor of the Oregonian

There is one feature of city government that seems to deserve the attention of those citizens who are charged with the duty of procuring legislative amendments to our charter It is the engrafting on our system of some means whereby those who own property can always protect it against those who do not It hardly seems fair that almost unlimited liabilities should be created through the votes in a large part of those who do not have to pay It is true that government has a double purpose of protection—first to human rights and second to property rights and I do not think the government of all human rights should be committed to the owners of property nor do I think property is the only thing to be protected by government there are other higher nobler and more important concerns But I do think that property is entitled to a lever of self protection which it has now in any city government under popular rule Numerous devices have been sought by statesmen in all ages and in all countries to secure this protection but no perfect rule has ever been discovered in free countries It will not do to say that any Caucasian shall be disfranchised Such a doctrine could not be maintained in any shape Neither will it do to say that city governments are mere business corporations (to be governed by the wealth thereof proportionately) for they are not but are rather nations or states in miniature involving many questions of human rights and civil government To limit suffrage then amongst Caucasians by education or property or in any manner is out of the question But it seems to me that the whole dispute could be easily solved by a very natural and easy expedient *Give property a distinct representation in the city government* For instance The cause of common human rights is now represented by councilmen selected from small wards Both the humble citizen and the man of wealth is in some measure represented by the mayor who being elected all over the city must generally be a man of some wealth and consequence But if a third class of representatives was elected the system would be complete and that is a city senate the ward councilmen being the lower house Let the senate be a less numerous body consisting of say five men elected all over the city by registered property voters these representatives to have a veto upon all legislation concerning property rights or powers akin to that In this way wealth could never trample upon poverty nor yet could poverty oppress or rob wealth The result would be a purified city government which however may be a bad suggestion and may cause this plan to meet with the disfavor of many mere politicians However Mr Editor I would like to see you agitate the question

GERMAN PRESS COMMENTS.

[From the St. Louis Westliche Post]

The republican pot is boiling From all sections of the country come the most encouraging news, denoting the enthusiasm of the republican party With satisfaction we can look back upon the proceedings of the last few days. And in the same degree the democratic pot is cooling off, this is very perceptible. The fire is burned down, and the only commotion noticeable is in the southern states, where they have practiced and trained in the fine art of fraudulent election returns and cheating at the ballot box to their heart's content. Hancock's letter of acceptance has evidently fallen like a wet blanket upon the unterrified, and they all have caught a cold How everything has changed! But no wonder! General Hancock is dissatisfied, and even at the great democratic powwow in New York how little was said about him! But the old fox Tilden received all the compliments and all the enthusiasm ran only in one channel—i e. toward Gramercy Park With and through this the matter had exhausted itself Since that time the democrats have not even given a sign of life Only their revolver-press is at work They throw the stink pots at Mr Garfield and beslobber the old veterans in order to catch them But all is of no avail, they refuse to be caught

[From the California Demokrat.]

Whether that colossal democratic majority in the state of Alabama is a bona fide or fraudulent one matters but little. If there is anything in the world to create anxiety in the north, not alone among republicans, but honest democrats also, this is the existence of the solid south a massive southern phalanx And the more brilliant are the victories which the southerners achieve among themselves at the polls, the more hateful republicanism is looked upon in the south, the firmer and more solid will it form itself in the north and the east and the greater will be the exertions to defeat the democratic party in November [illegible] sensible would it be for these southerners [illegible] would not burn their powder too [illegible] they would quietly ponder over [illegible] the devil can only be successfully [illegible] fire The north might otherwise [illegible] all to appoint its presidents [illegible] latures instead of [illegible] ern infamous swindling

Campaign Lies and the Best Way to Meet Them.

[From the Indianapolis News Ind]

The papers and speakers of the republican party in the main pay very little attention to the clamor of the democratic press against General Garfield's personal and official integrity They rarely reply at all, still more rarely defend or explain And they do well The impeachment of private character though the least legitimate and effective of all the weapons of party warfare is the easiest handled and the first sought by unskilled or unscrupulous hands There is something positively delicious to a [illegible] mind and a dull conscience in calling a distinguished man a "scoundrel" It is an assertion of equality that gratifies spite and vanity together So no matter what length or value of public service, or cleanness of private life may plead for decent consideration, a presidential candidate may expect that the air all around him will be full of [illegible] implying offences enough to fill a penitentiary They can no more be repelled or destroyed than a swarm of gnats and the only remedy is to bear their brief annoyance patiently and the only consolation is that as poisonous as they may be they never do worse than raise a pimple on a sound skin

MARK LANE REPORT.

The Condition of Growing Crops—Sales of Wheat, etc

The *Mark Lane Express* in its review of the British grain trade [illegible] [illegible] above and peas a little below The results of the second hay harvest will probably make up for the deficiency of the first cut Turnips are much over average. Potatoes are expected to be an unusually heavy crop Two hundred and forty-eight reports say that more or less disease has appeared Thirty two say there is no disease, while in fifty disease is not mentioned Wheat is considerably affected with blight and mildew A few returns declare the general state of crops to be as bad as it was last year but to the country at large the prospects though not so bright as some sanguine writers have reported [illegible] much better than they were at this time last year The quality of wheat and rye is generally good The French harvest will be above average In Belgium and Holland harvest is well nigh finished with excellent results The rye crop in Saxony Pomerania Brandenburg and Holstein are about half average but in Bavaria Franconia and Suabia the rye crop is magnificent Wheat throughout Germany is fairly good though there is considerable rust and mildew Accounts from Austria Hungary Spain and Italy are uniformly good

Spurts of disgusting mucous from the nostrils or upon the tonsils, Watery Eyes Snuffles, Buzzing in the Ears Deafness Crackling sensations in the Head Intermittent Pains over the Eyes Fœtid Breath Nasal Twang Scabs in the Nostrils and Tickling in the Throat are
